

# ACME™ Program

Consolidate sources and take the confusion out of an import program with Wooster.

In certain categories, price points are important to your business. This targeted selection of SKUs will meet your price-point demands and supplement your Wooster branded or private-label lines. Plus, the Acme program has more benefits than just price.

- For smooth inventory management, each product is identified with a UPC.
- The UPCs are regularly checked for accuracy and scannability.
- Products are Wooster-inspected for uniform quality.
- Shipping is consistent and on-time, no "overseas" delays.

## Acme Heavy-Duty Roller Frame #F0010
