

# PRODUCT DATA SHEET - UVEX XACT-BAND

## Hearing Protection

### uvex xact-band – banded earplugs with sound absorber

The sound absorber build into the banded design of the uvex xact-band effectively prevents annoying noises – for example contact with clothes – from being transmitted to the ear. Weighing only 4 grams and with extra thumb indentations, it really shines when it comes to handling, wearing and comfort.

#### General features

- banded ear protector with thumb indentations
- replacement earplugs can be stored in dispenser
- colour: grey, sky blue, lime
- version with band

#### Comfort features

- thumb indentations for quick and easy handling
- integrated sound absorbers reduce noise transmission through the band
- extremely low weight of just 4 grams

#### Protection features

- meets standard EN 352-2
- 26 decibels insulation – H: 29 dB, M: 22 dB, L: 21 dB
- ergonomically shaped arms for effective hearing protection directly in the ear canal, not simply resting on the outer ear
